	Quick closing valve	Yes	Yes	Yes	Yes	Class Rules GL 34	SPS Code + Class Rules
	Emergency lighting	Yes	Yes	Yes	Yes	Class Rules GL 34	SPS Code + Class Rules

* In the event that a rescueboat cannot be installed for practical reasons, a standby vessel shall be present at the work site at all times and be in constant VHF range, by means of a fixed VHF installation on the non-propelled vessel

** Column C of Annex 5 ([Medical supplies](#)) of the Regulation Safety Seagoing Vessels ([Regeling Veiligheid Zeeschepen](#)), as amended

*** In the event that the trading area mentioned on the Safe Manning Certificate exceeds 30 nautical miles, 12 rocket parachute flares shall be provided

**** A rescueboat need not be placed, under condition that alternative means are provided for rescuing a drowning person, whereby it should be possible to transfer the drowning person on board, horizontally, within 15 minutes

Each spot accessible with one hose
